The best way to depict eternal security is by calling it the security-in-sin gospel, for that is exactly what it is. Since the doctrine of eternal security continues to be unashamedly and boldly proclaimed from influential places, Christians who know the truth must likewise be aggressive and fearless in contending for the faith against these grace changers (Jude 3,4), who will try to force the Scriptures to allow for every excuse to sin. Precious souls hang in the balance. Because of its size, this book is not as intimidating as our 801 page volume.

As a former Catholic who in times past prayed the Rosary and wore the Brown Scapular, it is my sincere prayer that all Catholics will carefully examine this book. In it you will read: (1) The present-day official position of Catholicism on Mary and (2) What the Bible says about this. This book is not an attack on the Mary of the Bible. Please remember this! Instead you are being shown that the Mary of the Bible is not the Mary of Catholicism. They are two totally different people, though each share some common characteristics. This evangelistic tool will provide an excellent way to reach your beloved, sincere Catholic friends with the truth about this salvation issue.
